Summary

Programming is a hobby and passion of mine. What motivates me the most is the feeling I get when creating software that helps people.

My defining characteristic would be my attention to detail. I enjoy challenging problems, and working on a team to come up with creative solutions. I'm a fast learner, and constantly strive to improve myself and learn from my peers.

Technical Skills

Programming .NET, SQL, PHP, Python, Java, Javascript, Flex, XSLT

Source Control Git, Perforce, Subversion

Other Microsoft Visual Studio, Adobe Photoshop, Flash, L^AT_EX
